

Fence Installation Planning Checklist

Plan post spacing, depth, and layout before purchasing materials.

PROJECT SUMMARY

Fence Length:	_____
Post Spacing:	_____
Fence Height:	_____
Estimated Posts:	_____
Concrete Required:	_____
Planned Date:	_____

PHASE 1 — PLANNING

- Confirm total fence length.
- Plan gate locations.
- Choose fence style and material.

PHASE 2 — SITE PREPARATION

- Mark post locations.
- Confirm post depth requirements.
- Verify boundary alignment.

PHASE 3 — MATERIAL ORDERING

- Calculate posts and rails.
- Estimate pickets and hardware.
- Include concrete for post setting.

PHASE 4 — QUALITY & RISK CONTROL

- Ensure posts are level.
- Allow concrete to cure before loading.
- Check gate alignment.

COMMON PLANNING MISTAKES

- Incorrect post spacing.
- Insufficient post depth.
- Gate sag due to poor bracing.
